Chapter 2: Appendix 4. Staff interview questions

Faculty staff interview: Biological Sciences
EDUH1016 Human Biology for Human Movement and Health Education

1. What has your involvement been in the process of developing this unit of study? Did you feel there was sufficient communication between your team, UniServe Science and Education? Do you believe you had sufficient opportunity for input?

2. Were you involved in advising/designing/evaluating specific content areas? What was your involvement in the design/implementation of the ‘special lectures’, the WebCT site and in particular the discussion forums through the WebCT site?

3. Who else in Biology was aware of this project? Were they kept informed? Did they have input, and if so, what?

(Additional interviews that did not have preset questions were also conducted with Education.)
