Engineering

Adapting to the Fast Increasing Demands for Microelectronics: Curriculum Design and Teaching Strategies 1
Jianhong Yang, Lanzhou University

Chemistry

Using Problem Based Learning and Cooperative Group Learning in Teaching Instrumental Analysis 4
Guling Zhang, Ocean University of China
Using Student-centred Learning Strategies in the Physical Chemistry Classroom 9
Li Lei, Beijing University of Chemical Technology

Mathematics

Two Student-centred Teaching Methods in Mathematics 12
Guohua Peng, Sichuan University
The Combination of Traditional Teaching Method and Problem Based Learning 18
Zhang Xiuping, Beijing Normal University
Improving the Qualities of Teaching Calculus – By Using Modern Education Theories and Modern Technology 23
Zhou Yuan, Fudan University
Application of Contemporary Education Strategies to the Teaching of Operations Research 28
Zhiping Chen, Xi'an Jiaotong University

Biology

The Development of a Microbiology Course for a Large Class of Students of Diverse Backgrounds: A Review of Seven Years of Change in Zhongshan (Sun Yet-Sun) University, China 36
Yun-Can Ai, Zhongshan (Sun Yet-Sen) University
Improving Teaching and Learning in University Education 42
Fan Limei, Zhejiang University
Teaching Botany in English in China 46
Lijun Wei, Harbin Institute of Technology and Mary Peat, The University of Sydney
Building Bridges in Teaching Bioinformatics: The Use of Student-centred Teaching and Problem Based Learning in Cross-discipline Courses 51
Yun-Can Ai, Zhongshan (Sun Yet-Sen) University and Neville Firth and Lars Jermiin, The University of Sydney

Geosciences

Choosing and Using Appropriate Strategies to Improve Teaching and Learning in Sedimentology Courses at Peking University (Beida) 57
Chaodong Wu, Peking University, Tom Hubble, The University of Sydney, Xiancai Lu, Nanjing University, Fanglin Li, China University of Geosciences Wuhan and Changhou Zhang, China University of Geosciences Beijing
Designing and Redesigning the Curriculum to Provide an Integrated and Challenging Program for Undergraduate Students in Earth Sciences with comparisons between Nanjing University and The University of Sydney 63
Xiancai Lu, Nanjing University, Tom Hubble, The University of Sydney, Chaodong Wu, Peking University, Fanglin Li, China University of Geosciences Wuhan and Changhou Zhang, China University of Geosciences Beijing
Improving the Curriculum: Introducing more Student-centred Teaching Strategies into the Tectonic Analysis Course 69
Changhou Zhang, China University of Geosciences Beijing, Tom Hubble, The University of Sydney, Fanglin Li, China University of Geosciences Wuhan, Chaodong Wu, Peking University, and Xiancai Lu, Nanjing University
The Advantages and Disadvantages of Virtual Field Trips in Geoscience Education 75
Weili Qiu, Beijing Normal University and Tom Hubble, The University of Sydney
