Physics

- Using new strategies to improve teaching and learning in a *Fundamental Physics* course 1
Li Wang, Lanzhou University
- Science teaching and learning reconsidered 5
Ping Wu, Tianjin University
- Application of modern teaching strategies in physics teaching 9
Yong Ling, Tsinghua University
- Why and how to teach the Special Theory of Relativity in an *Electrodynamics* course 13
Jingbo Zhang, Harbin Institute of Technology

Chemistry

- Re-thinking the teaching of *Organic Chemistry* in Harbin Institute of Technology 16
Yang Lei, Harbin Institute of Technology
- An exploration of problem based learning teaching in *Organic Chemistry* 19
Xin Wang, Peking University Health Science Centre
- Applying contemporary teaching strategies to improve the teaching quality of *Organic Chemistry* 23
Lan Zheng, Northwest University
- Student-centred methods used in an *Instrumental Analysis Laboratory Course* 27
Shi Yuhua, Jilin University

Computer Science and Information Technologies

- To improve teaching of *Computer Graphics* by using concept mapping 32
Kong Dehui, Beijing University of Technology
- Using constructivism as a teaching model for computer science 36
Dai Luo, Beijing Forestry University
- Contemporary teaching approaches and their application in the teaching of *Fundamentals of Multimedia Technology* 41
Zhao Yingliang, Xi'an Jiaotong University
- Application of the contemporary education strategies in teaching *Fundamentals of Computer Programming* 45
Yan Zheng, Beijing University of Posts and Telecommunications

Mathematics and Statistics

- Applications of *Excel* in teaching *Statistics* 48
Shuqin Yang, Dalian Maritime University
- Bridging the gap between elementary and advanced mathematics 52
Yufeng Guo, Beijing Normal University
- Improving *Advanced Mathematics* teaching by adding some modern methods and ideas 56
Wang Yongge, Beijing University of Aeronautics and Astronautics

Engineering

- Using student-centred teaching approaches in the course of *Analog Electronic Circuit* 60
Yong Wang, Fudan University
- A reconsideration of the teaching strategies in *Basic Theory of Circuits* 64
Li Ping, Shanghai Jiao Tong University
- Using problem based learning in *Electrical Engineering Foundations* 67
Lei Yong, Sichuan University
- Enhancing *Transducer Technology* teaching with contemporary pedagogy 71
Chen Zhihong, The Central University for Nationalities
- Employing a combination of teaching approaches to improve the quality of teaching and learning 75
Lu Guizhu, Xiamen University
