

This timeline was produced using *Excel* and the tutorial available from The Excel Nexus at <http://www.vertex42.com/ExcelArticles/create-a-timeline.html>

The different symbols were achieved by varying the tutorial so that all the entries relating to Max Planck were in one column, those relating to Einstein in another and those which were outside influences in a third. When constructing the chart, it is necessary to enter additional x series (in this case a total of three).

-  Max Planck events
-  Albert Einstein events
-  External events e.g. World Wars, Manhattan Project
